WORK EXPERIENCE :

ORIGAMI GAMES STUDIO

MOBILE/PC GAMES | UNITY | 2020 – PRESENT

LEVEL DESIGNER

- Designed gameplay levels across 10+ released mobile titles spanning hyper-casual, horror, action, puzzle, and AI multiplayer genres.
- Built level layouts and progression systems across 50+ gameplay stages focused on retention and engagement.
- Created immersive environments using lighting, props, materials, and VFX.
- Implemented UI systems including menus, HUDs, and player-facing features.
- Conducted playtesting, balancing, and iteration using user feedback and analytics.
- Optimized scenes and assets for smooth performance across low-end Android devices.
- Collaborated daily with artists, programmers, QA, and management using Git / Taiga workflows.

PROJECTS :

FLOORS OF FEAR

HORROR | UNITY | LEVEL DESIGN | UI | VFX

- Designed horror gameplay spaces focused on tension, pacing, and navigation flow.
- Created immersive atmosphere through lighting and environmental storytelling.

NINJA BLITZ

MOBILE | UNITY | PUZZLE / STRATEGY

- Contributed to level design, gameplay balancing, and player progression systems for a live mobile title.
- Supported polishing, optimization, and release of a game with 10K+ downloads on Google Play.

PAHELI

PC | SINGLE PLAYER | ACTION RPG | GAMEPLAY DESIGN

- Designed and developed a narrative-driven gameplay experience combining action and exploration.
- Built player progression systems, combat interactions, and structured level flow for engaging solo play.
